DOCUMENT

Donation Platform — Scope

Overview

This document outlines the scope of the custom donation platform to be built for the Museum of Islamic Art Australia (MIAA).

The platform is built directly into the existing MIAA website and gives MIAA full ownership of the platform and its donor data. It supports one-time and recurring giving, campaigns and supporter-led fundraising, and accepts payments through Stripe and PayPal — including payments for events such as the Gala Dinner on 25 July 2026, which is included as its own campaign so MIAA can begin directing supporters to it ahead of the event.

What's Included

The following capabilities are included in the build.

01 Donations

- One-time donations (preset amounts & custom amount)
- Recurring donations (weekly / monthly / annual)
- Split donations across multiple causes or campaigns
- Donations in AUD

02 Payment Integrations

- Stripe integration (cards, Apple Pay / Google Pay)
- PayPal integration
- Saved payment methods for recurring giving
- Secure, PCI-compliant checkout

03 Event Payments

- Accept payments for events through the platform
- Gala Dinner payments (25 July 2026)
- Paid via Stripe and PayPal
- Linked to the relevant campaign

04 Campaigns & Appeals

- Dedicated campaign pages with goals & progress
- Gala Dinner campaign included
- Imagery and campaign content
- Multiple active campaigns at once

05 Peer-to-Peer Fundraising

- Supporters create their own fundraising pages
- Personal goals and progress tracking
- Linked to MIAA campaigns
- Admin review & approval of pages

06 Receipts & Confirmations

- Automated email confirmation for every payment
- Tax-deductible receipts*
- Receipts downloadable from the donor portal

07 Donor User Portal

- Donor account & secure login
- Donation history & downloadable receipts
- Manage recurring donations (update / pause / cancel)
- Manage saved payment methods
- Create & manage own fundraising pages

08 Admin Portal

- Dashboard of donations & campaign performance
- Manage donations & recurring subscriptions
- Create & manage campaigns
- Moderate peer-to-peer pages
- Newsletter & volunteer management
- Export donation records

09 CRM Sync (Brevo)

- Donors synced into Brevo
- Newsletter sign-ups synced into Brevo
- Deduplicated by email

10 Site Integration

- Built into the existing MIAA website
- On-brand and mobile responsive
- Hosted on MIAA's existing infrastructure

* Tax-deductible receipting is configured subject to MIAA / ISRA's deductible-gift-recipient (DGR) status and the receipt details MIAA provides.

How It's Built

The platform extends MIAA's existing website rather than adding a separate system, keeping a single brand, codebase and hosting footprint.

Front end

- Built into the existing MIAA website
- Responsive across desktop & mobile

Back end

- Extends the current MIAA backend & admin
- Donations, campaigns & donor accounts

Payments

- Stripe & PayPal
- Card details handled by the gateway, not MIAA servers

Security

- Served over HTTPS
- Admin & donor areas behind authentication
