

PREPARED BY THINK STUDIO

## DONATION PLATFORM

# Proposal

Two routes to a giving experience for [miaaustralia.org](https://miaaustralia.org) —  
compared on cost, control and donor experience, with a  
clear recommendation.

PREPARED FOR

Museum of Islamic Art  
Australia

DATE

June  
2026

STATUS

Confidential  
Proposal

## THE PROPOSAL

# Two ways to launch giving.

With your website live, the next step is a donation experience. You can **own one outright**, or **rent one** — here is each, side by side.

### OPTION 1 • CUSTOM

RECOMMENDED

## Built inside your portal

**A\$4,000** one-time

No monthly fee • 0% taken from any gift • owned forever

A donation engine built into the site we made for you. Pay once, own it — every dollar stays with the Museum and donors never leave your brand.

### OPTION 2 • THIRD-PARTY

## External platform, integrated

**A\$2,000** + ongoing

Plus a monthly fee and a % of every donation — indefinitely

We connect a hosted product (Donorbox or Raisely). Quicker and cheaper upfront, but you rent it forever and lose a slice of every gift.

### What the custom platform includes

ALL IN THE A\$4,000 BUILD

- ◆ One-time, **recurring & installment** giving
- ◆ **Sponsorship tiers** & designated funds
- ◆ Cart checkout • Stripe, PayPal, Apple/Google Pay
- ◆ **Donor dashboard** with annual tax statements
- ◆ Manage recurring gifts — pause, resume, adjust
- ◆ **Peer-to-peer** fundraising campaigns
- ◆ Admin console — reports, CSV export & CMS
- ◆ Secure accounts, role-based access & webhooks

### One seamless journey

Donors give without ever leaving your site — no redirect to a vendor's domain.

### Your brand & your data

Your checkout, your supporters, your records — no third party sitting in the middle.

### Built for how you fundraise

Sponsorships, appeals, installments and seasonal campaigns are native, not workarounds.

## THE COMPARISON

# Custom vs third-party — the numbers.

| CAPABILITY & COST                   | CUSTOM<br>IN-PORTAL | DONORBOX  | RAISELY   |
|-------------------------------------|---------------------|-----------|-----------|
| One-time setup                      | A\$4,000            | A\$2,000* | A\$2,000* |
| Monthly fee                         | None                | A\$0-210  | A\$0-167  |
| Fee on every donation               | 0%                  | 2.95%     | 4% + GST  |
| Native in your portal — no redirect | ✓                   | ×         | ×         |
| Owns the donor data                 | Museum              | Vendor    | Vendor    |
| Sponsorship tiers & benefits        | ✓                   | ×         | ×         |
| Annual tax statements (PDF)         | ✓                   | ~         | ~         |
| You own it — source code, FX-free   | ✓                   | ×         | ×         |

\*Think Studio integration fee. **Assumptions:** A\$200,000 online giving/yr · payment processing (≈1.75% + A\$0.30) excluded as it applies to all options · USD ≈ A\$1.40.

### 5-year total cost of ownership

Platform layer only (A\$)

~4 months

### TO PAY FOR ITSELF

Over five years — about **A\$1M** in donations processed — the custom build keeps **A\$27,500–A\$42,000** of giving inside the Museum instead of routing it to a third party.

### OUR RECOMMENDATION

### Option 1 — the custom platform.

Lower cost within year one, 0% taken from gifts, built for the Museum's needs, and owned outright. **5-year cost: A\$4,000 vs A\$31.5k–46k.**

**From thought  
to everything.**
